GROUP PRESENCE

GROUP PRESTIGIOUS CLIENTS

GROUP PROFILE

The Metro Group was originally founded in 1995. So, it is well into its third decade of successful operation. During this period the group has displayed a relentless pursuit of excellence. In the face of obvious market challenges the Metro Group has remained steadfast in its commitment to innovation. Today the Metro Group has become a household name when it comes to Aluminium Composite Panels, Aluminium Partition Panels, Plywood, Particle Boards, MDF Boards, HPL and PVC Laminates.

Metro Group manufactures its products across six top notch manufacturing units spread over Himachal Pradesh, Gujarat and Haryana. All the production units are equipped with machines imported from Germany, Japan, China, Italy and Sweden.

Metro Group was awarded the title of Power Brands Rising Star 2018 at a glittering ceremony at Hotel Orchid, Mumbai. Mr. Aman Garg, Director of Metro group was felicitated by Raveena Tandon (Indian Bollywood actress) and H. E. Adam Burakowski (Polish Ambassador to India). The event was conducted in association with Times Now and Bright Outdoor Media.

Metro Group has incessantly engaged in the endeavor of improving its product line and quality of product delivered. Customer satisfaction has always been the group's foremost priority. Today the group has made environmental friendly sustainability a part of its corporate identity by removing harmful materials throughout its supply chain and production cycle.

CRYSTAL UV COATED PANELS

Crossbond Crystal UV Coated Panels are glass effect decorative wood panels. Crystal UV Coated Panels have forged a new path in the surface coating by bringing forth the natural appearance and texture of solid wood. This ready-to-use board solution has simplified luxurious surface finish application. Crossbond Crystal UV Coated Panels create modern, graceful furniture combinations with mirror-shine for cabinet doors, bathroom vanities and office furniture.

WHY CROSSBOND

Crossbond Crystal UV Coated Panels are produced with advanced unique technology, going through a variety of industrial processes, in which adhesive and UV lacquer is applied to MDF boards. The state-of-the-art coating line with a length of 150 meters is first of its kind in India. In the patented coating process that achieves break-free adhesion to the melamine coated surface, German PUR adhesive coating is applied to the melamine surface. After the adhesive coat has gone through chemical curing, outstanding hard surface which is resistant to scratches, impacts, and wear is achieved. The multiple layers of topcoats, which harden with UV rays, provide an excellent level of gloss. Each board is packaged individually for ease of use.

QUALITY

- 1- UV coated panels are ready to use for all vertical and modular furniture applications
- 2- The UV gloss level is more than 102 degree thus giving a mirror finish
- 3- 100% cured UV surface is highly resistant to scratches and abrasion
- 4- UV coated panels offer long term acid and alkali resistance
- 5- UV coated panels are very easy to clean due to well-proportioned coating and smooth surface
- 6- Pure european designs assures clear pattern, vivid gloss and huge variety of choices
- 7- 10 layers of UV gloss lacquer ensures long lasting gloss finish

KEY FEATURES

STRENGTH

102° + High Gloss

Weather Shield

Durable

Multi Purpose

100% Hardwood

Piano Gloss Finish

AESTHETICS

10 Layers of Gloss

Various Colours

Fade Resistant

No Peeling of Laminate

No Cracking of UV

European Design

ECO FRIENDLY

Low Formaldehyde Emissions

Low Carbon Footprint

Value For Money
